

Application form aggregated data

Via this form, aggregated data can be requested from Statbel. A correctly filled out application should, on the one hand, enable the quick and efficient communication of the requested data, but on the other hand, it also enables Statbel to make a correct assessment in terms of data protection.

Based on the modalities of the application and the related risks, the Statbel DPO committee will decide whether or not a confidentiality contract should be concluded. It is therefore important that all relevant information regarding data protection is provided in a concise but nevertheless accurate manner.

How to fill in this form:

- The optional items should enable Statbel to quickly draw up a confidentiality contract if the DPO committee considers that a contract is necessary.
- Please provide in section '1. Description of the data requested - Proportionality' a brief description of the research context and indicate specifically which data from Statbel is intended.
- If the data is for internal use only, you do not need to complete section '2. Dissemination modalities'.
- For section '3. Internal security measures', it is sufficient to estimate the number of persons having direct access to the data.
- Regularity refers to the frequency with which you need updates (e.g. one-off request, monthly, annually, ...).
- The storage period refers to the duration the data in aggregated form will be kept for the purpose of conducting the research before it is destroyed.
- Other aspects that may be relevant with regard to data protection should be mentioned under the item 'Other: describe'.

Please contact the relevant Statbel statistician or statbel.datarequests@economie.fgov.be if you have any further questions.

Indicate the reason for your request:		
<input checked="" type="checkbox"/> aggregated data for internal use <input type="checkbox"/> aggregated data for dissemination purposes - open data excluded <input type="checkbox"/> Aggregated data dissemination via open data		
Data of the institution making the request (* optional)		
Name	The Universit� catholique de Louvain-la-Neuve	
Legal status*	Belgium	
CBE number*	Click here to type text	
Address	Street	Place de l'Universite
	Number	1
	Bus	Click here to type text
	Postal code	1348
	City	Louvain-la-Neuve
	Country	Belgium
Legal representative of the institution (optional)		
Name	Click here to type text	
First name	Click here to type text	
Function	Click here to type text	
Applicant/Contact (mandatory)		
Name	Otavova	
First name	Martina	
Function	PhD student	
E-mail address	martina.otavova@uclouvain.be	
Telephone number	Click here to type text	
<input checked="" type="checkbox"/> I accept that Statbel will use my data to process this request.		
1. DESCRIPTION OF THE DATA REQUESTED / RESEARCH PLAN		
Databases	IPCAL and DEMOBEL	
Variables + detail	Net Taxable Income – specifically, the proportion of households with net taxable income (adjusted by a household size) below the living wage on an aggregated level of statistical sector for the years 2001 (if possible), 2005 and 2011	
Proportionality	<p>The requested data should contain a proportion of households with net taxable income (adjusted by a household size) below the living wage on an aggregated level of statistical sector for the years 2001 (if possible), 2005 and 2011.</p> <p>The data would be used in the doctoral research project ‘Multiple deprivation and health inequalities in Belgium since 1990s’ for a creation of the Belgian index of multiple deprivation (BIMD).</p> <p>As deprivation is multidimensional, we aim to create a new tool – time and space specific - that would help to precisely locate the</p>	

	deprivation hot spots in Belgium. The BIMD will contain multiple domains of deprivation, such as housing, education, employment, health, or crime. Requested variable is necessary for building the income deprivation domain.
2. DISSEMINATION MODALITIES	
Description of planned dissemination products	Click here to type text
Safety measures	Click here to type text
3. INTERNAL SECURITY MEASURES	
Storage data	
Number of persons with access to data	Only one person will be accessing the data (Martina Otavova).
4. OTHER PROVISIONS / REMARKS	
Duration of the desired contract	Click here to type text
Regularity	No update required
Storage period	The storage period would be until October 2024
