

Statistical product

Indices of Total Wages and Salaries

Wages and salaries are defined as 'the total remuneration, in cash or in kind, payable to all persons counted on the payroll (including homeworkers), in return for work done during the accounting period' regardless of whether it is paid on the basis of working time, output or piecework and whether it is paid regularly or not.

Accuracy and reliability

Accuracy

Sampling error

Non-Sampling error

Timeliness

Timeliness

Results available 3 months after the reference period

Comparability

Comparability - geographical

Comparability – Over time

Time consistency is adapted (back-casting/reviewing)

Comparability - Sectorial

There has been a change in the definitions/concepts/nomenclatures

Comparability - Other

Coherence

Internal coherence

Consistency is ensured between sub-fields, variables, etc, Consistency is ensured between sub-populations

Cross-field coherence

Recognised concepts and terms are used (national or international concepts only if consistency can be evaluated at this level), Recognised nomenclatures are used (either national or international), Concepts, definitions and nomenclatures are saved and managed, Consistency checks are performed between concepts, definitions and nomenclatures, There is consistency between surveyed units and observation units

Data revision

Data revision - policy

Data revision - practice Calculation of the reference quarter and recalculation of the 4 previous quarters
